

Transition Year Unit.

Subject: LIFT

Number of Periods per week: 1

Class Teacher: Rob Harvey

Aims and objective:

To introduce the students to 8, nationally researched, important dynamics of leadership

To assist them in becoming young leaders who facilitate workshops inside/outside school

To work towards a certification which will benefit them in whichever area they operate within and outside of school.

Course content:

LIFT Ireland is a not-for-profit organisation that work to improve leadership skills across all industries. They provide a schools' programme which focuses on 8 dynamics of leadership that are useful to learn (Learning, Positive, Respect, Resilience, Determination, Empathy & Understanding, Innovation & Adaptability and Honesty & Integrity).

Students learn about one per week and participate in round table discussions within the class period.

I am a certified LIFT Facilitator having completed the training modules myself this year.

Method of assessment:

LIFT Ireland will certify the students as facilitators once they have completed three modules, this can be done with the year group at the end of the academic year.

Transition Year Unit.

SAINT VINCENT'S
CASTLEKNOCK COLLEGE

Although there is no official assessment linked to certification from LIFT, I would assess the students through a reflective diary which they would collate over the module.

Digital Learning Skills :

The use of the reflective diary.

Engagement with LIFT training material during the module.
